Field Trips – Educational Experiences

Field Trips should be designed and planned as one of an array of multiple and varied opportunities for students to gain and apply knowledge and understanding of content, concepts, and skills. Field Trips should be educational, academic experiences which:

1. directly relate to the curriculum standards being taught
2. enhance learning
3. motivate and engage learners
4. enrich the curriculum

5. extend the learning
6. offer a source of facts and new learning materials not immediately available in the classroom or school.

Field Trips – Safe and Valuable Experiences

In addition to the obligation to plan educationally sound field trips, is the serious obligation to ensure that all field trips are safe, secure, and viable learning experiences. Field Trips should be designed and planned to:

7. begin and end within the limits of the times that the children who are participating would usually be in session in school ensure safety
8. avoid potential risks
9. include a well-planned schedule of events
10. meet the learning needs, development levels, and learning profiles of students
11. include accommodations and/or modifications for those in need.

Field Trip Proposal:

Relevance to Curriculum (reference criteria above):

Plans for Involvement and Safety (reference criteria above):

Field Trip Proposal: The Office of Family & Community Engagement would like our Cross Country Program to participate in the Ocean State Cross Country Invitational. If approved, students will be given the option to participate in this event. Based on the number of students who wish to participate, we will register a boys and girls team for the Middle School Division races.

Relevance to Curriculum: This is a wonderful experience for students to engage with other students from several states and is an opportunity to promote physical activity and wellness to our students.

Plans for Involvement and Safety: Please see attached documents showing race schedules and event details. We will bring a nurse (more if needed based on number of students who participate) with us to ensure the health and safety of our students.
