Instructional Rounds: Overview and Introduction

Instructional Rounds

An Instructional Round is an organized observational visit through a school's classrooms and other instructional areas to collect objective evidence about how instructional improvement efforts are being implemented school wide and how the implementation is impacting student learning.

Rationale

“Instructional rounds are one of the most valuable tools that a school or district can use to enhance teachers' pedagogical skills and develop a culture of collaboration.” -Marzano

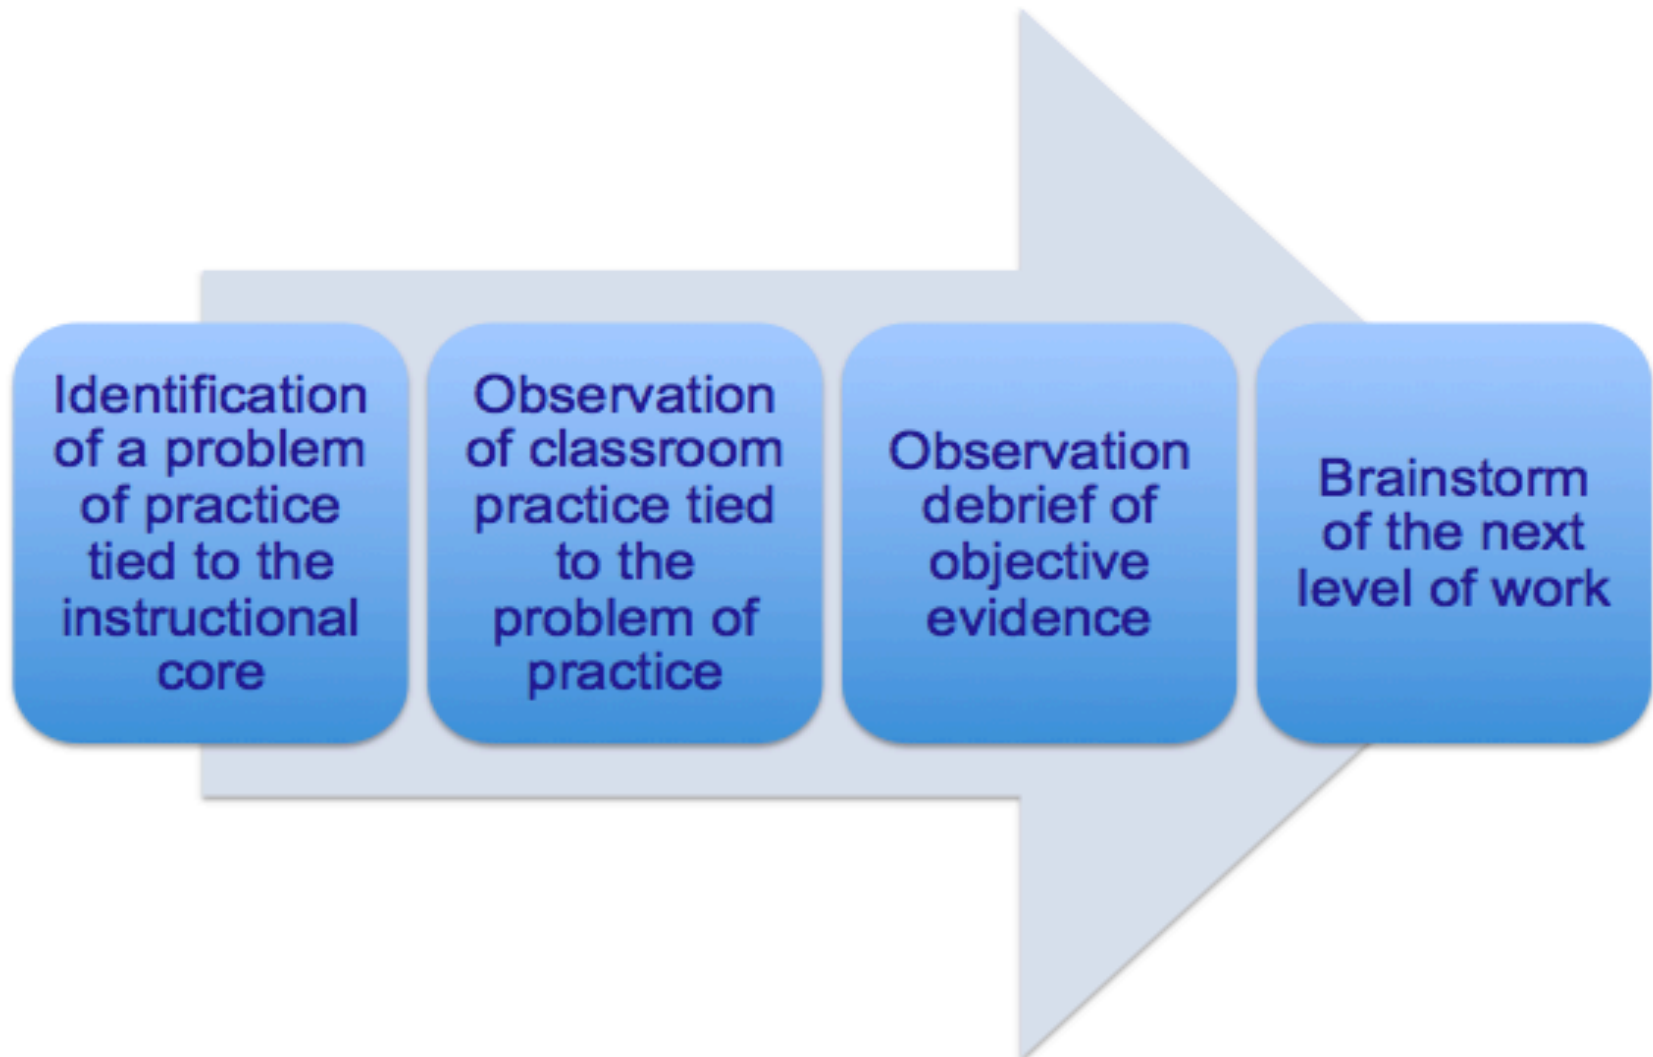

Prework

- Training
 - Leadership Team
 - HPS Staff
 - District-wide Instructional Rounds Team
- Development of “Problem of Practice”
 - Challenge identified by school
- Planning meeting with host school administrators

Four Elements of Instructional Rounds
