ADMINISTRATION GOALS

It is the intent of the School Committee that the District employ qualified personnel to administer the school District efficiently and to require the Superintendent to organize the administration in a manner that will make clear the functions of each position and the relationships among them.

The Superintendent will establish clear lines of communication, both vertically and horizontally, and will form any staff councils or committees needed to provide for efficient conduct of school business. In order to engage in this process in an orderly and effective fashion, each individual and group will be given particular, clear-cut responsibilities. Channels will be established so that the recommendations and decisions of each group can be heard and reviewed by the chief administrative officer concerned, and, where appropriate, by the Superintendent and School Committee.

The organization and administration of the schools will balance responsibility with commensurate authority, subject to the reserved legal powers of the School Committee. This means that a staff member, when assigned a responsibility or a position, will be given the authority to make the decisions necessary to perform the assigned tasks.

For the schools to operate effectively, each administrative officer will be responsible and accountable for making a plan of development for all staff assigned to his/her area of operation.

The goal of school administration is the successful implementation of the policies set by the School Committee. To attain this goal, the Superintendent shall:

1. Establish procedures which provide for effective and economical execution of School Committee policies.
2. Assign duties and responsibilities to the school staff as required to implement procedures.
3. Assist and advise the school staff in the exercise of their duties and responsibilities.
4. Budget and employ available resources effectively and economically.
5. Keep the School Committee informed on all matters concerning policy and budget.

EVALUATION OF THE SUPERINTENDENT

Evaluation can serve the purpose of helping educators and educational leaders continually improve their practice.

Through evaluation of the Superintendent, the School Committee will strive to accomplish the following:

1. Ensure the efforts of the Superintendent are focused on district goals and the standards of professional practice established by state regulation are met by the Superintendent.
2. Ensure all Committee members and the Superintendent are in agreement and clear on the role of the Superintendent and the immediate priorities among their responsibilities.
3. Provide excellence in administrative leadership of the school district.
4. Develop a respectful and productive working relationship between the School Committee and Superintendent.

The School Committee and Superintendent will periodically develop a set of goals based on the needs of the school district and in keeping with state procedures for evaluation of the Superintendent. The Superintendent's performance will be reviewed in accordance with specified goals and standards according to the evaluation cycle agreed upon with the Superintendent.

All School Committee discussion and deliberation related to the Superintendent's performance evaluation shall be conducted in open session in accordance with the Open Meeting Law.

STAFF RELATIONS

The School Committee expects the Superintendent to establish clear understandings on the part of all personnel of the working relationships in the school District.

Personnel will be expected to refer matters requiring administrative action to the administrator to whom they are responsible. The administrator will refer such matters to the next higher administrative authority when necessary.

It is expected that the established lines of authority will serve most purposes. But all personnel will have the right to appeal any decision made by an administrative officer through established grievance procedures.

Additionally, lines of authority do not restrict in any way the cooperative, sensible working together of all staff members at all levels in order to develop the best possible school programs and services. The established lines of authority represent direction of authority and responsibility; when the staff is working together, the lines represent avenues for a two-way flow of ideas to improve the program and operations of the school District.

ADMINISTRATIVE COUNCILS, CABINETS AND COMMITTEES

The Superintendent may establish such permanent or temporary councils, cabinets, and committees as he/she deems necessary for assuring staff participation in decision making, for implementing policies and procedures and for the improvement of the educational program.

Functioning in an advisory capacity, all councils, cabinets and committees created by the Superintendent may make recommendations for submission to the School Committee through the Superintendent. Such groups will exercise no inherent authority. Authority for establishing policy remains with the Committee and authority for implementing policy remains with the Superintendent.

The membership, composition and responsibilities of administrative councils, cabinets and committees will be defined by the Superintendent and may be changed at his/her discretion. However, the School Committee wishes to be kept informed of the establishment and dissolution of these groups as well as their membership and their purpose.

Expenses incurred by such groups for consultative services, materials, and any investigative travel will be paid by the school District, but only within budgetary allotments and when approved in advance by the Superintendent.

SITE-BASED MANAGEMENT

The Hanover School Committee believes that the school is the key unit for educational improvement and change and that successful school improvement is best accomplished through a school-based decision-making process. By involving those directly affected by any action or decision of the school council in the process of determining that action or decision, it helps to strengthen the commitment to those decisions by those most affected by its implementation.

Under this policy, the Principal shall have primary responsibility for the management of the school. Decisions which are made at the school level must be aligned with the District wide budget, policies, curriculum, mission, vision, and long-range and short-range goals adopted by the School Committee and approved by the Superintendent. In addition, decisions must comply with any state and federal laws and rprocedures and with any negotiated agreements of the Hanover Schools and approved by the Superintendent.

As enacted by the state legislature in the Education Reform Act of 1993, a school council shall be established in each school to advise the principal in specific areas of school operation. The Principal, except as specifically defined in the law, shall have the responsibility for defining the composition of and forming the group pursuant to a representative process approved by the Superintendent and School Committee. (See Procedures for Membership Composition and Selection, Conduct of Business, Duties and Responsibilities.)

POLICY IMPLEMENTATION

The Superintendent has responsibility for carrying out, through procedures, the policies established by the School Committee.

The policies developed by the Committee and the procedures developed to implement policy are designed to increase the effectiveness and efficiency of the school District. Consequently, it is expected that all district employees and students will carry them out.

Administrators and supervisors are responsible for informing staff members in their schools, departments, or divisions of existing policies and procedures and for seeing that they are implemented in the spirit intended.

DEVELOPMENT AND DISSEMINATION OF PROCEDURES

The Superintendent will be responsible for specifying required actions and designing the detailed arrangements under which the school district will be operated in accordance with School Committee policy. These detailed arrangements will be designed to implement policies, goals, and objectives of the Committee and will be one of the means by which the school district will be governed.

In the development of procedures, the Superintendent may involve at the planning stage those who would be affected by the procedures, including staff members, students, parents/guardians, and the public. They must weigh with care the counsel given by representatives of staff, student, and community organizations. They will inform the Committee of such counsel in presenting pertinent reports of procedures and in presenting procedures for Committee approval.

As long as the Superintendent operates within the guidelines of policy adopted by the Committee, they may issue procedures without prior Committee approval unless Committee action is required by law; or the Committee has specifically asked that certain types of procedures be given Committee approval; or the Superintendent recommends Committee approval in light of strong community attitudes or probable staff reactions.

It will be the responsibility of the Superintendent to see that the procedures developed to implement Committee policies and administer the school district are appropriately coded and included as procedures in the School Committee's policy manual.

A procedure concerning a particular group or groups in the schools will be distributed to the group(s) prior to the effective date of the procedure.

SCHOOL COMMITTEE REVIEW OF PROCEDURES

It is expected that the Superintendent and administrative staff will need to issue procedures implementing policies of the School Committee. Many of these will be routine from year to year; others will arise in special circumstances; some will be drawn up under specific directions from the Committee.

The Committee may review the procedures developed by the Superintendent for the school system prior to their issuance, but it will revise or veto such procedures only when, in the Committee's judgment, they are inconsistent with policies adopted by the Committee.

The Committee will not officially approve procedures except as required by state law, or in cases when strong community attitudes or possible student or staff reaction make it necessary or advisable for a procedure to have the Committee's advance approval.

Rules Pertaining to Staff and Student Conduct

Under Massachusetts law, the Superintendent is required to publish "rules and regulations pertaining to the conduct of teachers and students which have been adopted." (Codes of discipline, as well as procedures used to develop such codes shall be filed with the Department of Education for information purposes only.) Standards of conduct will be included in staff and student handbooks. These handbooks will be reviewed and approved annually by the School Committee.

APPROVAL OF HANDBOOKS AND DIRECTIVES

The Principal, in consultation with the school council, shall prepare and distribute to each student a handbook setting forth the rules pertaining to conduct of students. The school council shall review the handbook each spring to consider changes in the disciplinary policy to take effect at the beginning of the next school year.

It is essential that the contents of all handbooks conform to School Committee policies. It is also important that all handbooks bearing the name of the school district or one of its schools be of a quality that reflects credit on the school department. Therefore, the Committee expects handbooks requiring approval to be approved prior to publication by the Committee and/or the Superintendent.

Committee approval will be necessary for any handbooks that pertain to required standards of conduct for employees or students so that their contents may be accorded the status of Committee-approved policy or regulation. The Superintendent will use their judgment as to whether other specific handbooks need Committee approval; however, all handbooks published will be made available to the Committee for informational purposes.
