FISCAL MANAGEMENT GOALS

As the trustee of local, state, and federal funds allocated for use in public education, the Committee will use these funds wisely in pursuit of the district's goals.

The quantity and quality of the district's educational programs are dependent on the effective, efficient management of allocated funds. Achievement of the district's purposes can best be achieved through excellent fiscal management.

It is imperative that the educational program be held of paramount importance. Decisions made due to resource limitations must center on the educational goals of the district.

This prioritization will be incorporated into all aspects of district management and Committee decision making.

Regarding the district's fiscal management, it is the Committee's intent:

1. To allocate public funding, centering equity while achieving the greatest educational returns and the greatest contributions to the educational program in relation to dollars expended.
2. To engage in thorough advance planning, with staff and community involvement, in order to develop budgets
3. To advocate for levels of funding that will provide high quality education for all students.
4. To support the use of the best techniques for budget development and management.
5. To provide timely and appropriate information to the community.

ANNUAL BUDGET

The annual budget is the financial expression of the goals of the School Committee in meeting the needs of all students.

The budget then requires an orderly and cooperative effort by the Committee, the staff, and the community to achieve the goals of the district.

Public school budgeting is regulated and controlled by legislation, state regulations, and local School Committee policy. The operating budget for the school district will be prepared and managed in line with the above.

In developing a budget, care shall be taken to make all presentations and documents associated with the budget clear and accessible to the members of the School Committee, to the municipal officials, and to the general public.

The budget shall be in compliance with the foundation budget. It is acknowledged that the foundation budget reflects the minimum recommended spending for a District, and excludes transportation costs, debt service costs, and costs associated with the acquisition of fixed assets. The aforementioned items must, therefore, be budgeted in addition to the foundation budget, and funds to support those expenditures must be raised from the community, after the use of any offsetting revenues received from the state.

The Superintendent will serve as budget officer but may delegate portions of this responsibility to members of their staff, as they deem appropriate. The three general areas of responsibility for the Superintendent as budget officer are budget preparation, budget presentation, and budget administration.

A budget is a spending plan, which is developed well in advance of the fiscal year.

Circumstances may occur which necessitate changing spending priorities and redirecting funds within the budget accordingly. Revisions to the budget may be made from time to time by the Committee, upon the recommendation of the Superintendent.

Annual budgets for each school operated by the District shall be developed with input from the School Council and shall reflect the priorities established in the annual school improvement plan.

BUDGET DEADLINES AND SCHEDULES

Preparation of the annual budget will be scheduled in stages throughout the school year with attention to certain deadlines established by law and charter.

The calendar year for budget preparation will be determined by calculating backwards from the final adoption date.

The School Committee will also observe the statutory requirement of holding a public hearing on the proposed budget not less than seven days after the notice for this hearing has been published in a local newspaper.

Whatever dates are assigned, the final date for the submission of the budget to the Select Board will be arranged cooperatively with the School Committee and Finance Committee.

BUDGET PLANNING

A sound budget development process must be established to ensure that the annual operating budget accurately reflects the District's goals. The budget is a financial planning tool that grounds itself in careful analysis of student achievement, enrollment, mandated services, and community values to allocate resources towards the goals set by the Committee. The first priority in the development of an annual budget will be the educational welfare of the children in our schools.

The Committee also holds in balance the valid interest of the taxpayers.

The budget document shall reflect all sources of revenue. It shall clearly explain how those funds will be used.

In the budget planning process for the school district, the Superintendent will:

1. Engage in thorough advance planning, with staff and community involvement, in order to develop budgets and guide expenditures in a manner that will achieve the greatest educational returns and contributions to the educational program in relation to dollars expended.
2. Establish levels of funding that will provide high quality education for all students.
3. Use the best available techniques for budget development and management.

The Superintendent will have overall responsibility for budget preparation, including the construction of, and adherence to, a budget calendar which will be shared publicly with the community. Such calendar will take into consideration the requirement that School Councils are to be consulted in developing school budgets.

BUDGET ADOPTION PROCEDURES

The district budget is adopted by the School Committee at the cost center level. Cost centers should represent appropriate levels of transparency for the Committee to oversee goal implementation while allowing for administrative day-to-day work. Cost centers will be agreed upon by the Committee and administration.

All revenue sources are subject to adoption by the School Committee. The budget is adopted by a simple majority.

Authority for adoption of the final school budget bottom line lies with the citizens who comprise, and who are entitled to vote at, the town meeting. The school budget is presented as part of the total town budget for action at the annual town meeting.

The Committee wishes to be kept abreast of the need for these adjustments so that it may act promptly and expedite financial record keeping for the school district.

All requests for transfers between cost centers as approved during the annual budget deliberation must be submitted to the School Committee for approval as part of the School Business Officer's quarterly report at the business meetings of the School Committee.

All funds in the general account not expended by the close of the fiscal year will be returned to the municipality.
