Last updated March 2023

**\*\*This adjusted sheet controls the non-educational expense variables of Operations / Maintenance & Benefits by removing those expense lines from the Total Expenditures**

This report shows per pupil expenditures by major functional categories, total in-district expenditures, and total expenditures for all districts based on the fiscal year selected on the *detail* report. Total expenditures per pupil average across all expenditures and pupils, both in-district and out-of-district. The out-of-district expenditure functions (9000 series) are not included on this report because we are not able to calculate per pupil expenditures consistently for all of these functional categories. FTEs that are less than 6 are suppressed. Non-operating districts are not included.
