Comments and analysis:

The READ 2700 initiative is one example of Mr. Ferron's desire to improve student achievement across all level of students. This initiative is aimed to increase the reading capacity of all our students K-8. While implementing this initiative the district has used data every step of the way to inform decisions. The feedback from staff has been extremely positive up to this point. I look forward to seeing the process continue into the next school year.

Hanover High School's curriculum has also continued to show great improvement. Having the opportunity to choose a pathway while in high school will set our students apart from other high school graduates. The course redesigns as well as the addition of new course affords our students more choices that they may be interested in going forward.

Comments and analysis:

Mr. Ferron works very well with all other town agencies. His working relationship with the police and fire department should be commended. They have been intimately involved in the Center School project as well as the proposed vestibule project at Cedar school.

The budget process continues to be transparent and extremely efficient. In collaboration with the Assistant Superintendent for Finance, Mr. Ferron masterfully allocated and manages our resources to accomplish our district goals. The budget was approved

and moved forward by the advisory committee with little resistance. The budget presentation is extremely clear and transparent while still remaining very detailed. This year Mr. Ferron was also tasked with forging a relationship with our new town manager. He has done an excellent job with this and I see them having a strong working relationship.

Comments and analysis:

Mr. Ferron's communication skills with families is one of his strengths. He is very good at keeping families informed. He took it one step further this year by implementing Podcasts into her arsenal of communication tools. This has been very successful and I appreciate his willingness to always look for ways to be better.

Mr. Ferron's ability to be a recognizable face on the campus of each school, while still completing the business of being the Superintendent that often keeps him at his desk, is to be commended. Staff, families, and students are accustomed to seeing him and feel comfortable approaching him, which demonstrates how involved he is in the daily routines of our schools as well as the after school events.

Comments and analysis:

Mr. Ferron starts every year off with a convocation ceremony that clearly identifies the goals of the district for the year. This year was no different. Beginning the year off with clear goals for all is an extremely effective way to engage all staff in his shared vision for our district.

Mr. Ferron along with Assistant Superintendent Debbie St. Ives, has created a culture of reflective practice that is to be commended. The instructional rounds are an ongoing professional development that has proved very successful in developing our teachers as well as increasing the achievement of our students. Not only does this give teachers as opportunity for teacher leadership, it also give teachers time to discuss best practices. The Read 2700 initiative in another area where teachers are being given the opportunity to increase their instructional capacity. Making time for such important teacher development has and will continue to benefit all students in our district.
