

Practice these six small steps for healthy sleep

Be your Best Slept Self[®]

Daytime

Nighttime

1. Light

Spend time in bright light during the day, natural light or equivalent brightness.

2. Exercise

Exercise regularly for a deeper sleep. Aim for 30 minutes a day, 5 days a week.

3. Mealtimes

Eat your meals at consistent times day after day.

4. Avoid...

Avoid heavy meals, nicotine, caffeine, and alcohol before bedtime.

5. Wind-down

Use a consistent routine with a relaxing wind-down to help get the sleep you need each night (7-9 hours for most adults, with same sleep and wake times.)

6. Environment

Put your devices away an hour before bed and sleep in a quiet, cool, and dark environment.
