Fun with lines and patterns in Art

Art RECAP

It is hard to believe it is already January 2024! Students were very busy in the fall! We learned about routines in the art room and how to be a super friend with the art materials.

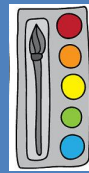

Mrs. Nameika's kindergarten class showing off their line and pattern monsters!

Both kindergarten and first grade classes have been exploring many different mediums while learning about lines, patterns, colors and shapes in art. Some tools we have used in art class so far are watercolors, tempera paint, white glue, chalk pastels, cardboard and oil pastels.

A kindergartener in Mrs. Nameika's kindergarten class displaying their line and pattern monster!

KINDERGARTEN

In kindergarten we have been learning about the color wheel. Using the primary colors, students learned how to create the secondary colors! Oh what fun they had! We made some birds and pigs but we can't show a picture because we are saving them for the art show in the spring! Stay tuned!

FIRST GRADE

First graders learned more about texture and created texture owl 3D relief sculptures. Look for them at the spring art show!

Mrs. Sharpe's first graders using their creativity with white boards!

A polar bear from Ms. Horton's class! The background is the Northern Lights! We watched a story about the Northern lights!

First grade students are enjoying art class with the Hanover High School mentors!

Kindergarten families: Ask your kindergartener how to make tints and shades! We learned adding white to a color makes it lighter (tint) and adding black to a color makes it darker (shade).

First grade families: Ask your first grader about what fun you can have using chalk! We created some really cute chalk polar bears! Ask your first grader what we sprayed on the chalk to make it not smudge!

Feel free to reach out with any questions.
