

December 9, 2021

Dear Grade Four Parents,

On **Wednesday, January 5th and Wednesday January 12th** the fourth grade students will take a field trip to Gillette Stadium/Patriot's Place. Students will tour the Patriot's Hall of Fame, do a STEM module, and eat lunch at Red Robin in Patriot's Place. The stem portion of the field trip is a math-focused program where students work in teams of 3-4 from their class to ship authentic player equipment to various locations. Students are asked to select specific equipment, such as helmets, cleats, and uniforms and then calculate the correct box for shipping. They are also asked to assemble the box, estimate the weight, and determine the best shipping.

We will adhere to the following health and safety precautions on the field trip:

- The field trip will take place both indoors and outdoors. Masks will be required for the indoor portions of the trip for all students, staff, and chaperones.
- All students and staff will wear masks on the bus ride to and from Gillette Stadium.
- Chaperones are asked to drive to Patriot's Place and meet the class there.
- Lunch will be eaten at Red Robin and we will follow the seating plan used in our cafeteria; seating by class and lunch table groups.
- Lunch will be pre-ordered and all allergy precautions are followed
- A nurse will attend the field trip
- Students will travel on the field trip with their class and the same grade level group they attend lunch and recess with at school:
  - January 5th: Luccarelli, Ferguson, Walsh, and Gordon
  - January 12th: Lancaster, Tavares, Capraro, and Bryerton

We are looking forward to a wonderful field trip filled with lots of learning and fun!

Thank you,  
The Fourth Grade Teachers
