

# Learn About Foster Parenting and Adopting from Foster Care

The Department of Children and Families is actively recruiting foster parents for children in your community and surrounding areas.

Our goal is to provide our foster children with a supportive and healing environment in a home in their own community until they can be reunited with their families or another plan can be made on their behalf.

If you are thinking about becoming a foster parent, you can learn more about the application process and the supports provided by the Department by attending an informational meeting, checking out our Foster MA web page, or contacting me directly:
