

SUMMER IMPROV

***Instructor: Mr. Collin Fahey
Hanover High School Drama Teacher***

Join HHS Drama Teacher, Mr. Collin Fahey, for an improvisational adventure. Learn new skills or improve your acting technique through theater games and exercises.

Mr. Fahey will lead students through daily exercises that challenge the mind and inspire creativity. The week will culminate with a performance on Friday at 6:00pm each week. Explore the world of spontaneous performance art!

**INCOMING GRADES: 9-12
SESSION 1: JULY 8 - JULY 12
OR**

SESSION 2: JULY 15 - JULY 19
3:00pm - 5:30pm

A portion of the revenue from this workshop will be awarded to the Hanover High School Drama Club.

MIDDLE SCHOOL & HIGH SCHOOL ART EDUCATION

***Instructor: Mr. Aaron
DiGaudio
Hanover Middle School
Art Teacher***

The Science of Fright

A hands-on course that will take on the subject of costume & prop design along with the design & creation of haunted houses. Students will study the practical effects and psychology of haunted houses while designing and developing their own props and special effects for the HMS Haunted Locker Room that will run the day of Harvest Fest at HMS. Students will study the legacy of ghost stories, horror movies, and urban legends as they craft their own twisted haunt. This course is not for the faint of heart, subject matter & reference material will include horror movies and scenes of violence that may be disturbing to some.

**INCOMING GRADES: 9-12
SESSION 5: AUGUST 5 - AUGUST 9**
8:30am - 11:30am
Cost: \$165
MAXIMUM: 12 Students

CREATIVE ARTS

WOODWORKING 101

Instructor: Ms. Pam Manning, FACE Operations & Technology Specialist and Woodworking Enthusiast

Learn the basics of woodworking with simple hands-on projects to build your confidence and skills. Each lesson in this class explores an area of woodworking that will form the building blocks of all future woodworking projects. Students will use basic handheld power tools in a safe environment within the Hanover High School Engineering Wing.

Students will experience the following:

- Take apart a pallet and create something new!
- Make personalized backyard games such as corn hole and yahtzee (Yardzee).
- Transfer photos onto wood.
- Take a field trip to Hanover's own Rustic Marlin to observe woodworking on a larger scale as well as add the finishing touches to projects.

Whether you're new to woodworking or just want to solidify your understanding of woodworking basics, this class is definitely a class you will love!

INCOMING GRADES: 7-12
SESSION 4: JULY 29 - AUGUST 2
8:30am - 11:30am
Cost: \$225
MAXIMUM: 8 Students
Price includes all materials and two take home projects

COMPUTER PROGRAMMING & DESIGN CLASSES

Instructor: Ms. Pam Borgeson
Hanover High School Science & Engineering Department

UNITY 3D GAME DEVELOPMENT

This class will teach participants how to use Unity 3D's flexible development platform to create 3D games. Using cameras, 3D models, animation and music, students will develop their own games and have the opportunity to view and play each other's creations.
