for Curriculum & Instruction*

**Keith Guyette**  
*Director of Student Services*

**Thomas Raab, Ed.D.**  
*Assistant Superintendent  
for Business & Finance*

---

### Consent for COVID-19 Testing

**I give consent for the Town of Hanover Fire Department's Mobile Integrated Health Program to conduct a nasal swab procedure and a screening test for COVID-19.**

The testing process takes approximately 15 seconds and you will receive negative results in approximately 24 hours by secure email. Any positive results will be reported to you by a phone call from either the Public Health Nurse or one of the School Nurses. According to the Fallon Ambulance company, about 1 - 2 percent of the tests need to be re-done for various reasons. We hope this is not the case, but please be aware that there is a low risk you will have to be re-tested if there is an error with your sample.

Results will be shared with the Massachusetts Department of Public Health according to state regulations and will be available to the School Nurses and the Town of Hanover Public Health Nurse. No other staff member or member of the Fire Department will be able to access test results. Positive test results will be shared with your school administrator(s) so we may implement appropriate isolation, contact tracing, and quarantine protocols.
