

Unity

Unity is togetherness
Together we change the world
No one is worthless
Every voice should be heard

Unity is balance
A diverse mix
It's not silence or dominance
We need to push past our conflicts

Unity is equality
No one matters more than another
What counts is personality
Don't judge a book by its cover

Unity is harmony
Unique voices blending as one
Haven't we had enough controversy?
It's time to be done

Unity is not perfection
Nothing is without flaw
There will always be rejection
All battles come with scars

Unity is the key
The change our world needs
If we only start to agree
We can aspire to succeed

Our world needs to unite
Strengthened by the hard times
Compelled to follow the light
We only have one lifetime

So come together
Join hands in peace
Lift your voices to the skies

Change the world
Rewrite history
Think outside the box
And once and for all,
Unite

Think Box:

Unity is not perfect
Perfection cannot be guaranteed
Now is not the time to neglect
And it never will be
