

Love-Bot

Valentine's Day Creative Writing

You've received a Love-Bot for Valentine's Day-- your very own robot that will do whatever you would LOVE for it to do! Write a story about the first day with your Love-Bot. What did you have it do for you?

The first day I met my Love-Bot I was thrilled, It was perfect for me, because it just agreed with everything I said. When I get lonely and want to play a game, I can just ask Love-Bot and he will always do it. Usually when I get lonely I don't have anyone to play with, because my brothers just shut me down, but with the Love-Bot, it does whatever I want whenever I want and However I want, and that's why I Love my Love-Bot.
